If doing it at your holiday accomodation is not possible, Cristina can also arrange a location where you can learn the tricks of the Italian and Marchigian cuisine together! Or if you want to follow the cooking course with family and/or friends or another family who are staying in the same accomodation, that is of course also possible!

Christina's cooking class was absolutely wonderful. She taught us and our kids (10/14) how to make pasta from scratch and several other dishes and gave us plenty of tips and tricks. She allowed us to film her techniques so we could copy them at home. We had a great time and would definitely recommend booking Christina's cooking class.
